Manchester Communication Primary Academy

Manchester Communication Primary Academy

SPORTS PREMIUM

Impact 2017/18

www.mcpacademy.co.uk

What were the Aims of the Sports Premium Grant in 2017-18?

- Ensure that PE curriculum lesson re high quality, ensuring that all children have access to a wide range of sports and are enthused by the opportunity to develop their skills further.
- The academy is able to engage with inter-school competitions in a variety of sports, giving children a healthy sense of competition.
- All children in key stages 1 and 2 engage with a sport of their choice through after school clubs at some point in the year.

How much Funding was the School Allocated

£17,860

What is the Attaunment of the Y6 Cohort in Swimming?

The academy is growing and does not currently have a Y6 on which to report, however swimming is currently taught in Y3 through access to a local pool.

What did the Academy do to Ensure that the Impact of the Funding in 2017-18 was Sustainable?

- The curriculum offer was broadened through use of external expert staff in a wide range of sports, supported and observed by MCPA staff who in-turn were up-skilled.
- Equipment was purchased to support the delivery of a varied PE curriculum and engagement with extra-curricular activities and competitions.
- Children were enthused by the opportunity to try new sports (such as archery, fencing and golf), where this offer could not be sustained in school, children were signposted to external providers who can provide clubs/coaching in these sports.

Review of 2017/18 Provision Impact

Provision	Cost	Aim	Impact	Review
Premier Sports	£5,000	Provide high quality PE and staff training. Broaden Y2 curriculum offer.	80% children made good progress in premier sports lessons. Y2 curriculum offer was varied.	Not continue with provision – staff have been up-skilled and seen a range of sports taught. Delivery will be brought in-house.
City Play	£1,100	High quality PE teaching for nursery.	82% on track for physical early learning goals.	As above. Without the funding, this provision is not sustainable
Equipment Purchase	£3,000	Purchase equipment to support delivery of PE and extra-curricular sport.	73% of KS1-2 children attended a sports club in the year due to variety of offer.	Effective use of grant with sustainable impact – continue to build stock of varied PE equipment.
Swimming	£2,000	Support delivery of swimming to Y3 for a full-year.	84% of children achieved at least 1 'badge' higher than their previous swimming ability.	Good impact on the yeargroup. Use of own transport was less efficient than centrally offered provision. Cost per child can be reduced by offering half a year of swimming.
MCA PE staff	£7,260	Provide high quality PE lessons	76% of children taught by MCA staff made good progress in PE.	Impact of this has limited sustainability as MCPA teaching staff are not upskilled by the sessions (TAs are). Review for 2018-19 to reduce use of MCA staff to offer more specialist support.

2018-19 Priorities

- Ensure that PE curriculum across school provides opportunities for a broad range of sports with engagement effectively monitored.
- Increase extra-curricular and after school provision to enable greater engagement with sports and competition.
- Provide further opportunities for the training and development of MCPA teaching staff in delivering PE lessons
